⑮ Details of Desired Field of Training

- (1) Please indicate your desired field of training as well as detailed, specific reasons for your application. (If the space provided is insufficient, please use additional sheets of paper.)

Desired Field of Training : City Planning

- (i) Focusing on your desired field of training, please outline the current situation and pressing issues that must be addressed in your local government.

I work at Newbridge City Council where we are at an important crossroads in deciding the city's future. We plan to carry out a wide-ranging revitalization programs across the entire city and are in the process of collecting public comments about the process. We foresee that rezoning and land purchases may be a divisive issue in the community. Further issues include formulating a strategy to attract businesses to the planned high-rise district and the formulation of regulations covering the revitalized areas.

- (ii) Please indicate specific details of what you would like to learn while in Japan. Please include details of institutions you would like to visit, events you would like to attend, technologies you would like to study, etc.

I am aware that a large number of Japanese local governments are in the process of reevaluating their urban design strategies. I am interested to learn about the planning process, the details of the plans themselves, and how problems are tackled by Japanese local governments.

I also understand that this reevaluation process involves not only urban design issues, but also encompasses financial reforms. In order to improve the efficiency of Newbridge City, I would like to look into the debate surrounding Japanese local government finance reform.

Lastly, I would be interested to study the professional development courses offered to public servants.

- (iii) Please indicate how you would apply what you have learned in Japan to your work upon returning to your home country.

Through studying the urban design strategy of a Japanese local government, I believe that I will be able to make a greater contribution to the planned changes facing Newbridge City in my role as leader of the City Centre Revitalization Program. I also hope that learning more about financial reforms and staff development will allow me to implement policies in Newbridge that will benefit the city's efficiency standards.

(2) Please provide a detailed description of your **work experiences** focusing on aspects relating to your desired field of training in Japan.

(If the space provided is insufficient, please use additional sheets of paper.)

I became a local government official, because I believe that it will be government officials who lead my country into the twenty-first century.

As not only an employee of Newbridge City, but also a resident, I feel strongly about the city's future. I sought employment in Newbridge City because I want to make my community a better place to live for all residents. I want to make it the world's most pleasant city.

When I joined the city in April 2005, I was assigned to the International Relations Division of the Mayor's Office. At the International Relations Division, I was in charge of planning friendship and exchange projects, principally with cities with which we have a sister city relationship.

For four years beginning in April 2007, I was the Mayor's secretary. From April 2011 until the present, I have been worked in the Planning Division of the Mayor's Office, where I have been involved in work related to my desired field of training in Japan.

The Planning Division, which was newly established in April 2011, is the focal point for setting out a future vision for our city. Fifty people work in this division, which is comprised of three sections: the strategy section (conceptualization of the city's future), the planning section (preparation of concrete plans based on the strategy section's vision), and the implementation section (liaison with other departments to bring the plans to fruition). Presently, the division is working on ten projects, and I am in charge of the City Centre Revitalization Program.

The City Centre Revitalization Program outlines a plan to eliminate an old section at the heart of the city and replace it with a group of high rise buildings. This plan has already passed through the strategy section and planning section. My task is to coordinate the community consultation process, and liaise with other city departments and contractors who will actually implement the project.

In undertaking this assignment I have already faced numerous difficulties which have made my work in this vital position extremely challenging. As the project comes closer to becoming a reality, I have become increasingly determined to make the city where I live a better place. While feeling the weight of these responsibilities, I am honored to be able to contribute to determining the future direction of my city.
